法語聖經 - Gen, Genèse.第2章

1 Et les cieux et la terre furent achevés, et toute leur armée.
وَهَكَذَا اكْتَمَلَتِ السَّمَاوَاتُ وَالْأَرْضُ
أَبْكَلَ مَا فِيهِمَا.

1 天地万物都造齐了。
1 Thus the heavens and the earth were finished , and all the host of them .

2 Et Dieu eut achevé au septième jour son oeuvre qu'il fit; et il se reposa au septième jour de toute son oeuvre qu'il fit.
وَفِي الْيَوْمِ السَّابِعِ أَتَمَّ إِلَهُ عَمَلَهُ الَّذِي قَامَ بِهِ، فَاسْتَرَجَحَ فِيهِ مِنْ جَمِيعِ مَا عَمَلَهُ.

2 到第七日、神造物的工已经完毕、就在第七日歇了他一切的工、安息了。

Audio bible in french free download. Best french bible version. Can you learn french by listening to french radio. Is there a free audio bible. What is bible in french. How to learn french audio free. French bible audio free online.

Add multiple biblical versions. It's very rare for me to write a review. Any vocabulary that you do not find here, you will find in the French dictionary of highly regarded larousse, which has clear French audiophiles with native speakers. Granted, it can be difficult. Therefore, it is essential to know what accents do what, as well as how to type them. Start your French phonetic journey with the audio guide of a beginner. pronouncing individual letters and combinations of letters. Stay with a French family. You could also be accepted in the French company as a French speaker as French. These students learn a hard lesson their first day: expressing French correctly, you have to open your mouth. That is, the aspirÃ© ©, although silent, acts as a consonant and does not allow contractions or links to occur in front of it. For this reason, students are perforated in pursuing their lips generously to form a or when they speak a French or (oooo), stretching their lips when they say a tough French I (eeee), dropping the lower jaw decisively when They say a soft French A (ahahahah), making sure that the sides of the tongue hit the roof of the mouth and the lips are strictly chased when they pronounce the sinuous French u (a bit like me in The preponderance of the students comes from Germany, the United States and the United Kingdom, which speak Germanic languages that require them to show little physical physical to talk actually. This is a high compliment in a country that rewards the correctness and poetry of its language. About 7,000 students pass through cours, annually, mostly from Germany, the United States, the United Kingdom, Brazil, China, Sweden, Korea, Spain, Japan, Poland and Russia. In French, there are rules governing the pronunciation, which involves intricatesses as silent letters, signs of accent, contractions, ties, musicality and a lot of exceptions. Because this program is affiliated with a national university, the school mission is to "support French culture around the world" teaching French as a foreign language and French civilization (literature, history, art and more). You may also want to subscribe to The University-LevelÃ, Cours de Civilization Francaise de la SorbonneÃ © (CCFS). Talk to your university at home before going, and you may be able to negotiate credit for some or all your CCFS classes if you pass the final exam of the cours.Ã © as regards the French audio guide below, It contains more than 2,500 alphabetic voices. However, not all end letters are silent. If you are serious in learning to speak - French, one day you have to go. Audio quality is good. Every time a brief word like Je, I, the, the, OrÃ © nÃ © is followed by a word that begins with a vowel or silent (muet) h, the short word falls the final vocal, adds an apostrophe And it sticks to the following word. It may seem strange that French has specific rules for "euphony" or the production of harmonious sounds. But this is the case, and this and the musicality of language are two great reasons why the non-native speakers fall in love with this language. Instead of syllables emphasized on words, French has rhythmic groups of related words within each sentence. Can A bit complicated, but read the following lesson and you will buy what you need to work. This is not optional, as it is in English; French contractions are mandatory. If AnlÃ, hÃ © hÃ © muetÃ © or aspers aspirÃ©f Ã ©, the French H is always silent, however it has the strange capacity to act as a consonant and a vowel. The nasal vowels are those that make the language looks like the speaker nose is padded. I found this app. More than Liaisons and EnchaÃ © Ã©Nement, better you can talk and understand what is said. It's not so difficult once you get the slope. You will need a lot of practice to understand how to say things correctly. The developer, Li Liangpu, indicated that app's privacy practices may include data management as described below. The developer does not collect data from this app. Follow-up searching youtube for French film trailers, music videos and the French television button shows to see dialogues in action. Read the following lessons to get a general idea of which the letters are silent in French. Take the Ã ©
